Dear Woody,

Just a note to tell you my sister Gladys Baker died of heart failure Feb 22 at her home in Muldrow, Okla. She had been living there the last several years because she had asthma for over 30 years & felt better there. Her youngest daughter Cathy (Kitty Jo) & her husband live in Muldrow & Gladys had a mobile home next to them.

She was brought back to Deer Creek for funeral services & burial Feb 26.

I was in Florida. I went down Feb 13 & intended to stay until March 5th but came home Thurs to Rochester by plane & by bus to Decatur Fri. I've hardly had time to draw my breath.

I spent Dec 11 to Jan 8 in San Diego with Louise. Came home to take care of business & left Feb 13th for Florida. Evelyn was disappointed the because I came home, but I felt I belonged here. I can always go back down there.

There are only 3 of us left now, Doris, Donnie, & me.

I hear Ab Inven is very bad. There was a plant there at the funeral from Clinton & family but they weren't there.

The Baker kids forgot about some older cousins & some others too, because they have been gone so long. I did try Fri nite to call you.

How are things with you and the kids?

I'm doing O.K. - just take life a bit slower.
Aunt Dorothy
